Meet the Invader

Heidi Kleinert, National Feral Rabbit Management Coordinator
RFA R&D Webinar, 19 March 2025

Be informed

Be committed

Work together

National Feral Rabbit Management Coordinator Role

To help people better manage rabbits and reduce their negative impacts on our unique natural landscapes, agriculture, cultural heritage, community assets and our well being.

CENTRE FOR
INVASIVE SPECIES SOLUTIONS

Raise awareness

- Collect and share information on the rabbit issue in Australia, the impacts and what we can do

Help people get access to info

- Improve PestSmart Rabbit tool kits

Improve National Standards

- Coordinate the review of the National Code of and Standard Operating Procedures

Program deliverables

Support networks

- Connecting people with expertise or others working on the rabbit issue

Collaborate

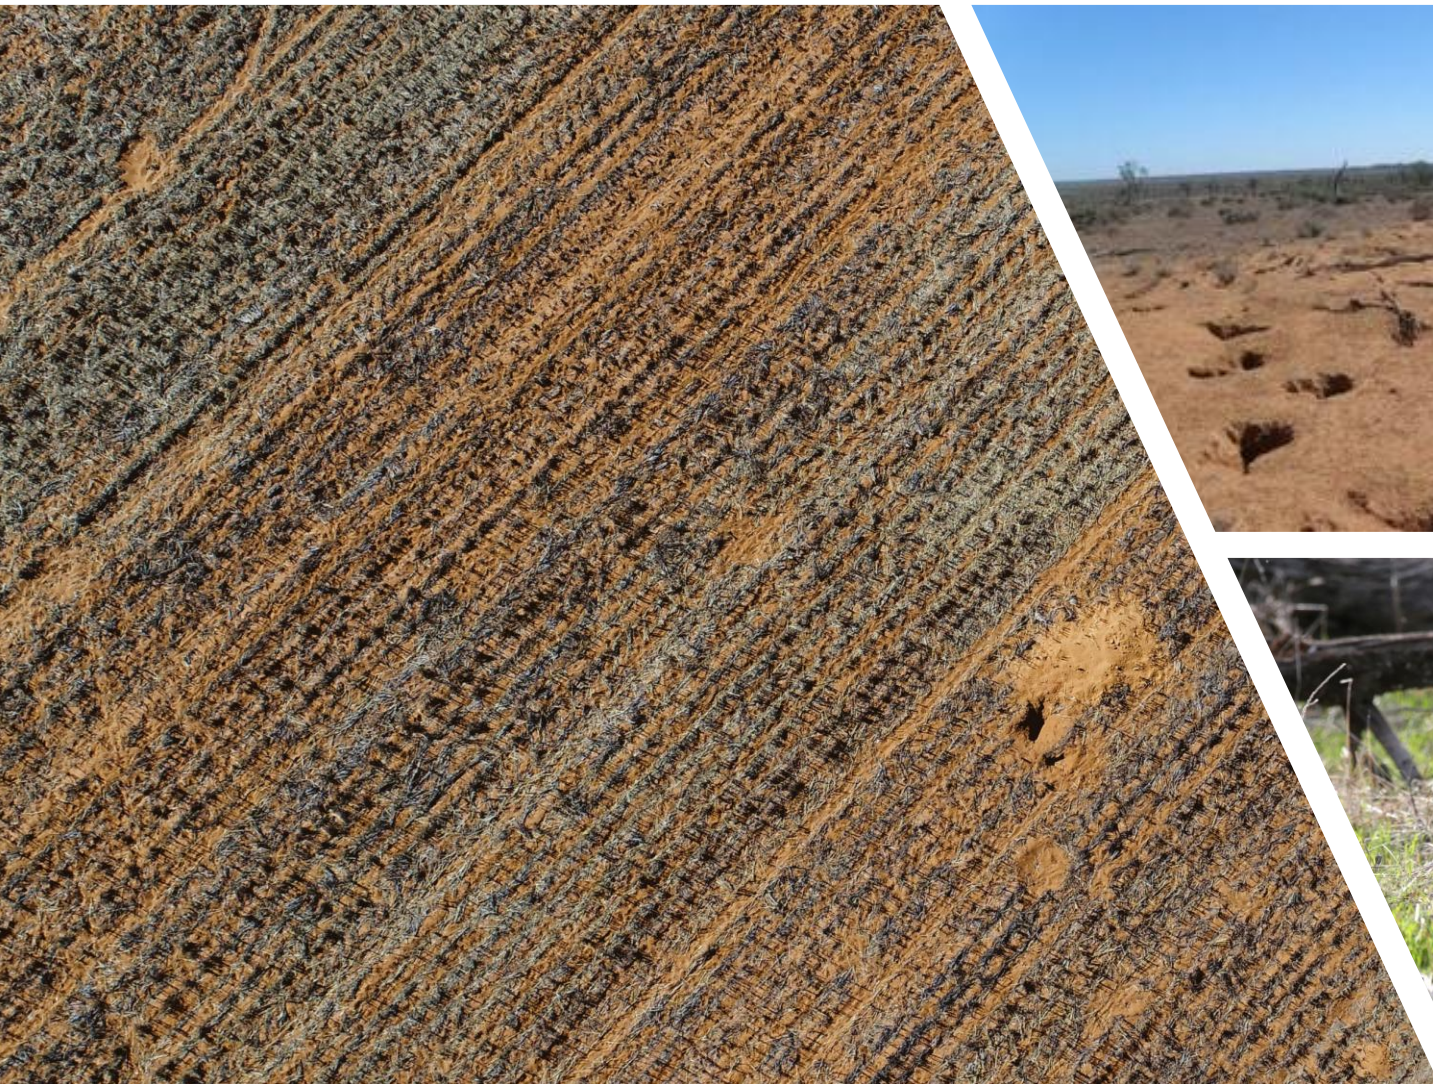

- Encourage collaboration and onground action to increase the extent of rabbit control

Learn

- Understand what community, government and industry need to address the rabbit issue, seek your input on the issue
